

**ASSESSMENT SHEET (V 19.03.2026)**

**Film Education / Swiss MEDIA Compensating Measures**

<b>Name of the Organisation:</b>	
<b>Title of the proposal:</b>	
<b>Expert name:</b>	

**The Film Education scheme - Targeted projects**

The aim of the funding line is to bring film to a young audience, usually not over 19 years old (exceptions are possible). Swiss organisations should be strengthened through European knowledge exchange and networking cooperations. The networking support comes with two different options. It's possible to either

- a) **dock to a Creative Europe MEDIA co-financed network** or to
- b) **create a new international network with at least 2 partners from 2 different MEDIA countries.** The offered programs must be available in at least three European languages, including at least one national language of Switzerland (German, French, Italian).

In terms of content, there are three options:

- Film education activities that use **innovative or digital tools**. This option targets an audience not over 19 years old.
- The preparation of a film catalogue of existing predominantly European films for use in **out-of-school** film education.
- The **exchange of knowledge** regarding material or methods of film education with the aim of exploiting synergies.

Only the Swiss part of the network is funded.

The production of films or the organisation of film festivals cannot be funded.

The application can be made for a single year or for multi-year-actions – up to a maximum of three years. If the application is made for more than one year, it must show an overarching theme in the case of actions which basically repeat the same structure every year.

**Assessment**

**Please answer in the language of the application** (German, French or Italian), if possible. However, if these are not your mother tongue, **you may also write in English**.

Experts are expected to give comments on each award criterion and, in their comments, **refer explicitly to the elements of analysis under the relevant criterion**. The comments on each award criterion must reflect and justify the score given for it.

At the end of the assessment, give us 5 to 7 positive and / or negative comments on the application as a whole, highlighting its relative strengths and weaknesses.

Please note that, due to copyright and confidentiality issues, experts are **not allowed to use AI tools** (e.g. for translation or evaluation) on parts of or entire texts belonging to the application. They may, however, use AI tools for research purposes. Upon request by MEDIA Desk Suisse, the expert shall provide reasonable information about the nature and extent of any usage of AI tools.

<b>1. Relevance and European added value</b>	<b>Max.</b>
<p><b>This criterion assesses the relevance of the content of the action vis-à-vis the objectives of the Call for proposals.</b>  <b>It will assess in particular the European dimension of the project and the capacity of the project to reach the targeted audiences.</b></p>	<b>30</b>

<b>Recommendation for selection for a shorter period of time (please specify)</b>	
---	--

**If you recommend the selection:**

<b>Amount of support recommended by the expert</b>	
--	--

The support recommended by the expert cannot be higher than the support requested by the applicant company. A reduced amount must be justified, for example on the basis of the budget (please indicate which items you consider overestimated).

## Scores

Within the maximum number of points per award criterion, ranges of scores are defined that correspond to a fixed definition of the expected quality standard so that an as coherent approach as possible is implemented, across experts as well as across actions. The standards on a **10 points scale** are as follows:

- 9-10 Very good – the application addresses all relevant aspects of the criterion in question convincingly and successfully. The answer provides all the information and evidence needed and there are no concerns or areas of weakness.
- 7-8 Good – the application addresses the criterion well, although some small improvements could be made. The answer gives clear information on all or nearly all the evidence needed.
- 5-6 Acceptable – the application broadly addresses the criterion, but there are some weaknesses. The answer gives some relevant information, but there are areas where detail is lacking or the information is unclear.
- 3-4 Fair – the application addresses the criterion, but there are many weaknesses. The answer gives some relevant information, but there are several areas where detail is lacking or the information is unclear.
- 1-2 Very weak – the application fails to address the criterion or cannot be judged due to missing or incomplete information. The answer does not address the question asked or gives very little relevant information.
- 0 No evidence –the application fails to include a minimum amount of evidence to enable the criterion to be evaluated. Although indicated on the scoring scale, experts should avoid "0" which relates to "no evidence". For obvious particular case, experts should contact MEDIA Desk Suisse.

N.B. Some criteria are to be rated on a **scale of 15 points or 25 points**. In those cases, you may find useful to use the standard scale and then multiply the score by the corresponding factor, further refine to the next whole number (if applicable). For example: 8/10 points in the standard scale corresponds to 12/15 (factor: x1.5) or 20/25 (factor: x2.5).
